

Proposal for Totally New Startup Inc

Hello Totally New Startup Inc.,

Understanding your needs

You are building a next-generation decentralized exchange (DEX) that requires robust infrastructure capable of handling high-throughput transactions, DeFi tooling, and cross-chain interoperability, while ensuring the security of your smart contracts before mainnet launch. Your goal is to quickly stand up a scalable, managed environment and have a thorough security audit completed well within your budget and timeline constraints.

Proposed services

- Managed Node Infrastructure – **\$2,500**
- Smart Contract Audit – **\$8,000**

Investment & timeline

- **Total Investment:** \$10,500
- **Estimated Timeline:** 3 weeks (1 week for infrastructure setup + 2 weeks for audit)

Next steps

Please review the proposal and let us know if you're ready to proceed. We'll kick off the Managed Node Infrastructure setup immediately upon confirmation, and begin the comprehensive audit to ensure your DEX is both performant and secure for launch.
